Summary

Results-driven professional with expertise in Java, Angular, and Hybris, offering practical knowledge and proficiency in software development. Proven ability to work collaboratively in teams, demonstrating outstanding communication and interpersonal skills. Adept at solving complex problems and delivering innovative solutions. Experienced in effectively managing projects and meeting deadlines. A highly motivated and adaptable individual, committed to achieving excellence in every task.

Experience

Associate Engineer • Nagarro

Mar 2022 - Present

- Developed and maintained software applications for Nagarro as a Software Developer
 - Utilized strong proficiency in working with APIs to integrate various systems and enhance functionality
 - Demonstrated expertise in database management, ensuring efficient storage and retrieval of data.
 - Collaborated with cross-functional teams to design and implement Java programming solutions for complex business challenges.
-

Education

Bachelor of Technology - BTech • United Institute of Technology, Prayagraj

Aug 2018 - Aug 2022

Computer Science and Engineering

Intermediate • Mary Lucas School & College

Apr 2016 - Apr 2017

SCIENCE(PCM)

High School • Mary Lucas School & College

Apr 2014 - Apr 2015

SCIENCE

Skills

Programming Languages: Python, Java, JavaScript

Web Technologies: HTML, CSS, Bootstrap, ReactJs, Angular, Spring Boot, Hibernate, JSP Servlet

Database: Mongo dB, MySQL

Tools and platform: Eclipse, IntelliJ, Visual Studio, GitHub, GitLab, Jira

Projects

Food Delivery Application

Nagarro

- Developed and launched a dynamic food web application facilitating users to browse a wide array of food options.
- Implemented a seamless ordering system enabling users to easily place orders.
- Incorporated a real-time tracking feature allowing users to keep track of their deliveries.
- Showcased a deep passion for creating a user-friendly and efficient online food platform.

Result Management System

Nagarro

- Implemented a user-friendly login feature on the homepage, enabling two types of users to access the project.
- Developed a roll number and D.O.B input system for students to effortlessly view their results.
- Empowered teachers to efficiently view all records, add new records, and seamlessly edit or delete existing records.
- Demonstrated a strong passion for creating a comprehensive and efficient project that caters to the needs of both students and teachers.
- Showcased excellent problem-solving skills and attention to detail while ensuring a seamless user experience.

Online Chat Application

United Institute of Technology, Prayagraj

- Created an online chat application allowing users to login using their Google and Facebook accounts.
 - Implemented functionality for users to create chat groups and engage in real-time conversations.
 - Enabled users to send files and audios within the chat groups.
 - Successfully developed a user-friendly interface for seamless communication and collaboration.
-

Achievements and Certifications

- **Earned Certificates in HackerRank for Java, Python, and SQL, demonstrating proficiency in these programming languages and database management.**
- **Earned a ReactJS certification from Internshala, showcasing proficiency in web development with an exceptional score of 94%**
